

# "maskaki"® **extra PLUS**

**mini Face Shield-Personal Protective Equipment (PPE with partial protection of face, reusable)**

**Designed for food service workers (waiters, counter attendants, hosts, kitchen assistants etc.)**

**extra size (14,5cm) - extra precaution - extra protection**

**with factory certification FCE**

➤ effectively prevents from exposure to droplets and reduces the transmission of the virus.

**Anti-dust**

➤ The face shield is reusable, and it can be easily cleaned with soap and water or common household liquid disinfectants and antiseptic wipes.

➤ Does not cover the face, does not reduce the visual field. The mini mask is a means of maintaining social distancing, without reducing proximity

**Anti-fog**

➤ It is of paramount importance to clean the face shield regularly

**Anti-germ**

➤ In comparison to other similar products, ours has a bigger visor (length: 14,5 cm), that sufficiently covers both mouth, nose and eyes

➤ The face shield consists of 1) a plastic head crown put together from two separate pieces made of PP Copolymer material, and 2) a transparent plastic visor made of PET material. This visor as stated above covers both mouth and nose.

**Anti-spray**

➤ All materials are food safe and certified. Factory production certification is provided.

**Made in Greece**

Material of plastic crown:

PET
